Lab Assignment 1
Color Illusion Additions

Lab Assignment Description

You are tasked with adding a few controls to the ColorIllusionInClass.java file we created in class on Tuesday. You must add a control to allow the user to change the color of the the circle and the background. The user should be able to enter any RGB value for the color. You also must have a control to change the radius of the circle.

Lab Assignment Requirements

- Control to change color of circle to any RGB value

- Control to change color of background to any RGB value

- Control to change radius of the circle

Lab Assignment Starter

I have uploaded the ColorIllusionInClass.java file that we created in class along side this PDF on learn.

Submitting Your Lab Assignment

You must submit the ColorIllusionInClass.java file on learn.
